

Product Information Sheet

FPS Premium Home Heat

(Product # 25000)

FPS Premium Home Heat is specifically formulated for fuel oil fired heating systems providing lower operating expenses by increasing fuel efficiency and decreasing maintenance costs.

FPS Premium Home Heat increases heating system efficiency providing improved fuel efficiency with advanced metallic combustion catalyst technology. **FPS Premium Home Heat** contains flow improvers for cold weather operability. This product will increase pump life with added lubricity and reduce sediment and deposits in fuel oil storage tanks.

Increases Burner Efficiency

Advanced combustion catalyst technology for increased burner performance and improved fuel efficiency.

Less soot and black smoke from heating unit.

Fewer deposits, lower emissions.

Cold Weather Protection

Lowers pour point of fuel oil to provide low temperature operability.

Reduces or eliminates the need for blending with costly #1 fuel oil or kerosene

– *Saves your customers money!*

Fuel Oil Stabilizer

Increases the oxidation stability of heating oil for longer storage life.

Provides a stable fuel with lower sludge/sediment formation.

Lubricity Protection

Improved lubricity extends pump life and provides reliable operation.

Dispersant

Increases fuel filter life and efficiency by controlling tank sludge/sediment.

Provides increased component life and fewer part failures.

Tank Protection

FPS Premium Home Heat protects system storage tanks by providing corrosion and rust protection.

Recommended Treatment Ratio:

One gallon of **FPS Premium Home Heat** treats 2500 gallons of diesel fuel.
